Jaycees Announce

Final Day Of

Seal Belt Clinic

Committee chairman Gene Chamberlain announced the final day of the Belle Glade Jaycee seal belt clinic will be Saturday, September 29. This will be held at the Kwik Check parking lot at 225 W. Canal Street North.

The seal belts in seven assorted colors and the price is \$6.00 per belt, installation is free.

The Jaycees will have ample teams to install belts and assure there will be no long wait. Hours will be from 9 a. m. to 4 P. M.

"Make plans now to have belts installed in your car," Chamberlain urged, "Remember the life you save may be your own."

US Sugar Dividend

\$1-Plus For Year

In April the US Sugar declared a 2 percent stock dividend.

In the June quarter a 25c dividend was declared. In a directors' meeting just held it is announced, a 25c dividend has been declared for the September and December quarters.

Thus a first quarter dividend of 25c was distributed, a 2 percent stock dividend in April and a 25c dividend each for the third and fourth quarters.

Had six of January's votes changed to Bailey there would be a tie in the run-off election for City Commissioner, and a third race would likely have been held.

The machines registered 498 and there were four absentee votes, making a total of 502 voting. However, four voters failed to vote on the machines so that their preference did not register.

Sabin Oral Sunday Is Temporarily Postponed

The initial dosing program of Sabin Oral Sunday has been temporarily postponed in Palm Beach County.

Although the Oral Polio vaccine committee feels that the vaccine scheduled for our program is safe, it is felt that at the present time the ultimate goal of immunization of 100 percent of the population of our country would be better achieved at a later date.

Apparent confusion has arisen because of the use of a foreign made vaccine of a different type which was recently administered and reported on in Canada.

The committee requests that all volunteers remain on standby basis until the confusion can be resolved by the U. S. Public Health Service.

Since full immunity from Oral Polio vaccine is not achieved until all three doses have been given, the committee urges everyone to resume their immunization using Salk vaccine.

Lutz is the son of Mrs. Mable R. Lutz, 209 N. W. Avenue C.

3 Conference Games Scheduled

Tomorrow Night; Forest Hill Here

Defending champion Seacrest, favored Forest Hill and upstart Stuart have gotten the jump in the Suncoast Conference's 13th football campaign as the season opened with seven games for the loop's 11 members last Friday night.

Seacrest and Forest Hill made their successful debuts in shut out fashion before home crowds, but both face tough tests for their mettle on the features of a six-game card for this week. Three conference games are scheduled Friday. Seacrest will invade Ft. Pierce for the Eagles' home opener, Forest Hill journeys to Belle Glade where the Rams run up one of the highest scores in league history in a non-league romp last week, and Pahokee visits Riviera Beach.

The week's action started Thursday when pennant-mined Lake Worth calls on Palm Beach High. This will be Palm Beach's first of six Suncoast foes this fall, with these games considered non-league because new Suncoast member, Palm Beach won't be playing all other league members.

J. H. McTaggart

Dies Wednesday

James H. (Shorty) McTaggart, 52, was stricken with a heart attack Wednesday afternoon at approximately two o'clock at his work in the shop of the Glades Correctional Institution.

When the ambulance which was called reached the hospital Mr. McTaggart was pronounced dead.

Mr. McTaggart's son, Irvin is in the US Army, and the daughter, Yvonne (Mrs. Robert L. Reese) is out of the city.

Mrs. McTaggart is an assistant at the school cafeteria.

No funeral arrangements have been announced at press time as the family had not been contacted.

Mr. McTaggart was a long time resident of the Glades and is well known as a machinist, having been active with the W. M. Pierce in the development of harvesting and decorating machinery for fibers.

Geo. H. Boutwell

Seal Chairman

Succeeds Roberts

Mr. George H. Boutwell, prominent business man of Lake Worth, has been named 1962 Christmas Seal Campaign Chairman by Emmett S. Roberts, President of the Palm Beach County Tuberculosis and Health Association.

Mr. Boutwell is President of Boutwell Guernsey Farms, Inc., a director of the First National Bank of Lake Worth; a member of the Trojan 20 of Lake Worth High School, Rotary Club of Lake Worth, and Chamber of Commerce; and is active in the First Congregational Church of Lake Worth.

A native of Massachusetts, Mr. Boutwell has been in business here for the past 35 years in accepting the chairmanship of the 1962 Christmas Seal Campaign, Mr. Boutwell said, "I have long been aware of the excellent work done by the Tuberculosis Association. I have a keen interest in tuberculosis and feel honored to have this opportunity to assist in the Christmas Seal Campaign."

Mr. Roberts commented, "Under the able leadership of George Boutwell, I am confident that this 56th Annual Christmas Seal Campaign will be one of which we can all be proud."

The campaign begins November 15 and continues through December. It provides the sole income for the Association's tuberculosis and other respiratory diseases in Palm Beach County," Mr. Roberts added.

Rams Romp Cardinal Gibbons 66-0

In First Football Game Of Season

Belle Glade Rams are still undefeated after their opener with Cardinal Gibbons of Ft. Lauderdale. It was the new school's first football game and one they would just as soon forget.

The inept Gibbons eleven inspired more sympathy than thrills. The Rams romped the ball as though in a dummy scrimmage.

Coach Bill Burke emptied the bench early in an attempt to hold the score down. It was no use. Even three stringers romped toward the end zone with routine ease.

Linemen were moved to defensive backfield positions and vice versa, but Gibbons couldn't put together a drive that counted.

Tommy Close led the Rams scorers. He ran for three touchdowns and passed for two more. Diddy Miller, Buddy Holt, Eddie Buckner, Danny Shiver and Bootie Weathers were others who scored.

Belle Glade had 16 first downs in the first half and coasted with reserves the second. The Rams face a much different situation this Friday night. The Falcons are picked as the top contenders for the Conference championships.

Barring injuries the Rams feel they can give anyone a full team's work.

Guard Stays At Home

Enlistments Invited

Enlistments are now open in the 2 Pipeline Platoons 149th QM Co., local Glades unit for non-commissioned personnel who will have the advantage of the 6 months active duty plan. Enlistments are also available for 12 months.

Local unit has been informed that President Kennedy's request for 150,000 reservists will not include the Glades unit as it was just released from active duty August 12th, and will not be reordered to active service with the new call-up.

Anyone interested in how to fulfill their military obligation with only six-months active duty should contact Sgt. Roland Todd at the army in Belle Glade from 8 a. m. to 5 p. m. Monday thru Friday or 8 to 10 p. m. on Mondays during Army Drill.

President of the Senate, and Director of the Conservation Board Randolph Hodges flew into the Glades Tuesday for a visit and inspection of natural resources with Representative Roberts.

City Commissioner was represented by Mayor Parrish, Commissioners January and Markham and City Manager Owen.

Bob Lee, President along with Avery Bass and Charles Goulet of the Port Committee represented the Chamber of Commerce.

Great interest was evidenced by the Director in the cross-state barge facilities, and their possibilities of service to the sugar industry.

The lack of competitive inter-

ests between an expanded Lake Okechobee cross-state barge facility and the much sought cross state canal from Jacksonville to the west coast, was pointed out by the visitor.

Engineers' maps showing the point of origin and routes of cane-hauling trucks, with emphasis on volume of movement were explained by Charlie Goodcut, Bob Lee and Emmet Roberts, with assistance by Bill Miller General Manager of the co-op.

Figures on the estimated capital investment by new sugar organizations, the total sale value of the product, the overall employment figures and the probable annual wage and salary payout substantiated the illustration of the burden of the roads and highways during the five-month harvest season.

When it was pointed out that the charts did not consider present tonnage over the roads by the vegetable industry, nor the necessarily added service for the increased population and activity, the Senator acknowledged the problem with the statement, "It's a revelation, this sugar industry. Your traffic problems are immense and I am sure that the Administration in Tallahassee will always be ready to stretch a point in helping you to solve them."

"You may be sure," the Senator told the group in the Board Room of the Co-op, "that I, within the bounds of my activities, will always lend a helping hand."

It is reported that the visitor expressed a desire to return some time soon and spend more time visiting and learning more of the activities of the Glades.

Senator Hodges, as President of the Senate is next-in-line to the Governor, for any reason, be incapacitated to fill his position.

As Director of the activities of the Conservation Board, Mr. Hodges has direct authority, under the Cabinet, which is the Board, over all conservation activities in the State government, including the Central and Southern Florida Flood Control Board.

The Conservation Board and the Powers that Be were complimented on the consideration for the public indicated by the C & S F FCD in the use of the Recreation Committee of the Broward-Palm Beach areas.

Mr. Hodges liked the idea of some practical plan to use the existing dikes as roadways in the area.

C&Sofla. FCD Ready For Hurricanes

Officials of the Central and Southern Florida Flood Control District do not take any chances when it comes to preparedness for hurricanes.

Preparations were made for tropical storm Celia in the event it developed into a full-fledged hurricane and hit the Florida coast.

In the event a hurricane alert is issued at FCD headquarters at West Palm Beach, key personnel are immediately directed to special posts.

All Pumping Station and Field personnel report to their assigned stations. These personnel remain at their stations on duty throughout the storm and are ready for emergency work.

Some water control structures are closed; others are opened fully to permit maximum drainage.

Mr. D. D. Executive Director of the FCD, said that in general, structures inland will be closed in an emergency, so that excess water may be collected in

the FCD's three big water conservation areas (I, II and III) and structures near the sea remain at their stations on duty throughout the storm and are ready for emergency work.

Eight huge FCD pumping stations in the Everglades Agricultural Area will be put into operation 24 hours a day. Crews will man the pumping stations and begin pumping in advance of heavy rainfall, and pumping will continue throughout any emergency.

498 Vote - January Wins

Commissioner January won the run-off race to succeed himself by a vote of 285 to 253, according to reports of the official count.

The machines registered 498 and there were four absentee votes, making a total of 502 voting. However, four voters failed to vote on the machines so that their preference did not register.

Had six of January's votes changed to Bailey there would be a tie in the run-off election for City Commissioner, and a third race would likely have been held.

Word is on the streets, partially confirmed, that budget requirements will find the assess-

ed valuation based on 90 percent instead of the present 75 percent, but that a one mill reduction in the rate will partially care for this.

The entrance of younger business men in city politics is emphasized with the race by three - Jimmy Williams, LeRon Williams and Bill Bailey - for the two positions open this time.

Another newcomer to city politics is E. M. Mathews, a vegetable broker who promises to maintain his interest in government.

Acute housing, jammed traffic, and new businesses resulting from the expansion of sugar production makes participants in city government new problems daily.

Home And Business Growth Forces

South Bay's '62-'63 Budget To \$99,000

New and more services to it's residents, popular and business activities have forced the City of South Bay to increase it's '62-'63 budget a third-plus from \$75,000 to \$99,000.

Following a study of several weeks, the Council finds that it is good business to purchase a ditcher instead of renting one; it must have a garbage truck, a dump truck and as well as a sewer and trash hauler. More streets must be paved.

The water budget was raised approximately 11 percent to \$53,612.

With the addition of four miles South Bay still remains in the lower brackets with a

total of eight mills. It is expected that bids will be asked for paving on S. E. Fourth, S. W. Fourth and S. W. Tenth Avenues in the immediate future.

A 6,000 gallon water storage tank is being advertised for sale and bids will be accepted on September 27th.

UNCLE DAN from DOOLIE says:

Dear Mister Editor:

Zeke Grubb's preacher come by the country store Saturday night, said it felt mighty good to get and rest for a spell. He told the fellers everybody in his congregation had had a summer vacation but him and he was as wore out as a peeg-man working in a swamp. He said a heap of his members figured he didn't work but a couple hours ever Sunday and didn't need no vacation. And he reported he had took the matter up with three of his Deacons and they claimed the Devil worked seven days a week and he ought to do the same. He allowed as how he didn't mind going day and night as long as it was doing some good, but about half his going, he claimed, wasn't serving the Lord none and could be helping the Devil a little bit. Per instant, he pointed out, he had to call every day to see how Kate Hightower was getting along from having a in-grown toe nail removed, and they had a meeting set up Monday night for the Kitchen Committee to decide on what color to paint the new garbage cans. He explained he had to at-

tend all Committee meetings on account of him having to open 'em with prayer.

The good Parson said he never figured when he was going through the preaching Sunday that part of his time would be took up with in-grown toe nails and garbage cans. Fact is, he said, he wondered sometimes why they ever studied the Good Book in schools for preachers. His main job, he reported, was raising money and getting more members. He said ever Sunday right after the service Luke Zinder rushes up and says, "How many did we have today?" And afore he can give Rufus the collection plate, Heczekiah Adams is weaseling for the report on the collection plate.

Actual, he told the fellers, he would've made a better preacher if he had took salesmanship instead of the Bible at the Seminary. He claimed that the main thing folks wants now in a preacher is personality. He says a preacher has got to bubble over like alkely settler to be a big success. He told about one woman in his congregation telling him one about the best preacher they ever had at her church. She said this preacher helped her husband unload a wagon full of manure the very first time he ever come to see her. The good Parson said he reckoned as long as a preacher is handy with fertilizer it don't make no difference how handy he is with theology.

He told the fellers he shore needed a little vacation to git back to normal, said he had a trip to take to Africa to visit a Missionary friend of his. It would be mighty interesting, he allowed, to see if the work load with preachers was as steady in Africa as it was at home.

Yours truly,
Uncle Dan

See Girl Scouts On TV Monday

In "The Road to Button Bay"

"The Road to Button Bay," which will be seen on Channel 4 (Station WTVJ) (See TV Guide for time) on Monday, September 24, is something new in evening TV. It is a real-life treatment of the 1962 Girl Scout Senior Roundup at Button Bay, Vermont, which was attended by two Senior Girl Scouts from Belle Glade.

Filed by Drew Associates, the prize-winning documentary film unit of Time, Inc., and sponsored by General Foods Corporation, "The Road to Button Bay" will be shown over the CBS-TV network in prime evening time.

The TV story of Round-up—largest encampment for girls ever held in the Western world—will be told through the experiences of patrol of eight Senior Girl Scouts from Kansas, three of whom are specially featured. But since the movie cameras followed this group to several events involving many of all the 10,000 Round-up campers, local Girl Scouts will be hoping for a glimpse of someone they know.

Members of the local Round-

up contingent will gather at the home of Johnnie Nutt on the evening of September 24 for a viewing party, along with the Senior Girl Scout members.

"We hope," says Mrs. Bernard Munsey President of the Palm Glades Girl Scout Council, "that everyone in the Glades District will be watching 'The Road to Button Bay'."

We are sure it will be an enjoyable hour, and we think it will give many people a new appreciation of what Girl Scouting means to our teen-agers.

The Belle Glade girls who attended the Roundup as representatives of the Palm Glades Girl Scout Council were: Barbara Wolf, daughter of Mr. and Mrs. Emil Wolf and Johnnie Nutt daughter of Mr. and Mrs. J. R. Nutt, Belle Glade.

Guardsmen To Attend Officer Candidate School

Sgt. David D. Bachman of Belle Glade and Sgt. E. V. Cochran of Clewiston, members of the local Glades National Guard Unit will attend several weeks training periods between now and next June at Camp Blanding, Fla., as Cadets in the Florida Officer Candidate School. Next June the two guardsmen will be ordered for two weeks training at Camp Blanding, upon completion they will receive their commission as 2nd Lieutenants and will be assigned to the local Glades unit.

Be kind to your eyes. Remember, the right light in the right place will protect your sight—and that's precious! One of the blessings of electricity is that ample lighting costs so little. School-agers need ample light for lessons done at night. Reading, writing, studying and sewing will be easier when there's adequate light to prevent eyestrain and fatigue. Kitchen work goes faster—and is safer, too—when you have ample lighting over all work surfaces. Add some eye comfort, use plenty of cheerful electric light to decorate your home and flatter your furnishings... to keep every room free from dimness and shadows... to give your spirits a lift. Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN... TOUGHTEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,099 miles! This is the road near Loreto.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' bah) California Peninsula, Mexico. These pictures give you only a bare idea of the place. The road is finer 140 miles below the U.S. border. Then the testing begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers threaten them. The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles. All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

St. Philip Benizi Hall and Rectory To Be Dedicated Sunday By Bishop

The St. Philip Benizi Parish Hall and Rectory will be solemnly blessed and dedicated by Bishop Coleman F. Carroll, D. D., on Sunday, September 23 at 8:30 p. m.

Construction on these two buildings under the supervision of Father Francis X. Fenech, started last March. Father Fenech came to the Glades in September 1960. He was born in Malta, an island fortress in the Mediterranean which stood the most concentrated bombing in the history of the world during the second world war, and where the tradition of the Knights of Malta still lives on.

Bishop Carroll, who will be dedicating the new buildings, the Catholic Diocesan Bishop of South Florida. During his four years as bishop here, more than forty-million dollars worth

of construction has taken place by the Catholic church in the Southern half of this Peninsula.

The St. Philip Benizi Parish Hall and Rectory constructed at a cost of about sixty thousand dollars are the architectural work of Architect Murray Ball Wright, a personal friend of Father Fenech. For the occasion of the dedication Father Fenech and his parishioners would like to extend a cordial invitation to all the citizens of Belle Glade and surrounding areas.

Women Of Church Install Officers

The last General Meeting of the year and the installation of the new officers of the Women of the Church for 1962-63 took place at the Presbyterian Church Tuesday evening at 8 p. m.

Reports were given of the year's work by each chairman in her respective department. An article was reviewed by the outgoing president, Mrs. Urban Fenech, a chair representing the sources of our Christian Education literature.

The very impressive installation service was conducted by Mr. C. E. Crichfield. He asked each incoming officer to voluntarily accept the symbolic bonds of Christ, a chain representing love, gratitude and purpose. In so doing they would receive three promises of Christ: companionship, answered prayer and honor.

The new officers installed were: President Mrs. W. K. Whitlock; Vice-president, Mrs. Robert Lanier; Assistant Historian, Mrs. C. D. McClure; Chair of Spiritual Growth, Mrs. A. S. Fenech; Chair of Christian Education, Mrs. Richard Murray; Chair of World Missions, Mrs. Urban Fenech; Chair of General Fund Agencies, Mrs. Tommy Parker; Four new circle chairmen: Mrs. Robert Roadman, Mrs. Hagan Powell, Mrs. Theron Casselman and Mrs. Roy Vandergift.

Following the installation service the outgoing president presented the gavel to Mrs. Whitlock.

Mrs. Felsing was presented a gift of hostess trays from the group.

An Invitation

"Remember now thy creator in the days of thy youth." (Eccl. 12:1). "Train up a child in the way he should go." (Prov. 22:6).

The Belle Glade Church of Christ would like to help you in carrying out these great principles of God's word. We would like for you to know that you would be very welcome guest in our Bible School next Sunday morning at 10 a. m. We have several fine teachers and there is a Bible class for each age group. Will you not help us make next Sunday a great day for the Lord?

See you in Bible class!

Three Teachers Help Children Needs

We have in the Glades area, as a very vital part of our regular school system, the Royal Palm School. This phase of our school offers services for exceptional children. Mrs. Marjorie Crick is coordinator of this program for Palm Beach County. She began this program in 1940 with just two classes. Since that time the program has expanded tremendously under the capable and understanding leadership of Mrs. Crick.

Of course, this program like other school programs is hampered by lack of teachers and equipment, overcrowded classrooms, and sufficient units to every school. This is true in our area as well as in the schools on the mainland.

In a democracy such as we have, we feel the need to offer the best kind of education to every child, and we try to meet the needs of every child. The Royal Palm School is an attempt to help the child who has special needs. Teachers in this program have specific training for this work. In Belle Glade we offer classes for children who have emotional, physical, and/or mental problems, classes for the gifted, as well as a program for homebound students. Mrs. Nancy Boots teaches a comprehensive class, Mrs. Selma Bamford the curriculum adjustment, and Mrs. Alice Close the speech improvement and speech correction classes.

For several years two comprehensive classes of the Royal Palm School were taught in Ft. Pierce by Mrs. Geraldine Grimes and Mrs. Lila Myers. They served children in the Glades area of Palm Beach County. In 1960 the school was divided into two sections brought to Belle Glade. Mrs. Liska Hooker organized and taught the class in Belle Glade. At the present time Mrs. Nancy Boots is teaching this class.

The comprehensive class for the Belle Glade area meets in a cottage near the Belle Glade Elementary School. This class is like a little one room school with pupils enrolled from grades one through six. Children come from the Lake Harbor, South Bay, and local elementary schools. They are usually enrolled in the Belle Glade Elementary School for approximately one-half day and attend the comprehensive class one-half day. The pupils have the benefit of regular classroom activities with children their own age. Then when they come to the comprehensive room special help is given in any subject where it is needed. The class is limited to 12 or less at one time.

"Texas Is Great"

Ford Cochran Says

The "Great State of Texas" left its impression on Mr. Warren H. (Ford) Cochran who last month returned from an extended tour of western and eastern states and a visit with his two sons and their families. "They (the Texans) are the friendly people in the world," was his consensus. "When we entered the state we were given a card to fill out and mail back giving our opinion of the hospitality extended throughout the state and I told my son 'we can't say a thing but that every one was simply wonderful!'"

Mr. Cochran made the trip with his son Johnny, his wife and their small son, going to Ft. Huachuca, Arizona where Sgt. Claude H. Cochran and family live. This was the first visit with his son Claude in seventeen years, and they spent two weeks with them. "We saw so many things in Western States I didn't even believe were in existence," Mr. Cochran said. They drove through Tucson and down into Mexico. Leaving there they went to Hershey, Illinois to visit another son and brother, Warren E. Cochran and three children, spending two weeks there.

Enroute home Mr. Cochran became ill and received emergency treatment in Calhoun

which meets every week. In addition to second graders, the teachers recommend any children in the third, fourth, fifth, and sixth grades who may need speech correction. These students are tested and enrolled if necessary. Also included, are the children who received speech therapy last year and continue to need further help. Mrs. Alice Close, local speech therapist, has all the Glades Elementary Schools which includes Lake Harbor, South Bay, Osceola, Belle Glade Elementary, Pahokee Elementary, Pahokee Annex, and Canal Point Elementary School.

I wish to express my
THANKS
for your vote and support
in last Tuesday's Election

As your City Commissioner I will
strive to represent you fairly in
working for the growth and
progress of our City.

LeBron Williams

I wish to thank the 243 voters who were willing
for me to help govern their city.

Also, I sincerely thank the other 255 who voted
Tuesday.

The right to vote is a wonderful privilege we have,
but it is a terrible shame not to exercise this right.

I would like to remind everyone that you only have
about two weeks left to register to vote in the statewide election in November. Register at the Glades Office Building.

Thank You

Bill J. Bailey

C & So. Fla. FCD Ready For Hurricanes

(Continued From Page One)
ing stations are completely self-sustaining. The FCD supplies them with food, and they have their own electricity. They can continue to operate for a week or more, if necessary, even with out being contacted.

A new teletype system, provided by the Miami Weather Bureau, brings frequent weather bulletins to FCD offices in West Palm Beach. This service regularly brings hourly bulletins, but in case of a hurricane emergency, the service is stepped up.

The FCD also maintains two-way radio contact with all pumping stations, field offices, and mobile units.

After the hurricane passes, inspection teams will survey conditions and damage according to prearranged plans.

During 1960, FCD levees, canals, and other works prevented \$28 million in flood damages even though the overall 16-county project was less than one-third completed.

Since 1960, a \$3 million pumping station on the Palm Beach-Broward County line has been added to the FCD

network of facilities. The District's eight pumping stations south of Lake Okechobee can pump over 10 million gallons of water per minute. Three more pumping stations are now under construction on the northwest shore of Lake Okechobee.

In addition to the pumping stations, the FCD is now managing over 1,200 miles of canals and levees plus 60 major spill-

ways and dams and several hundred secondary water control structures.
